**Blood Sugar Level Before and After Drinking**

a) **Before** : **21 mmol/L**  
b) **After** : **6 mmol/L**

**Energetic Person**

Before drinking GlucosCare Herbal Tea, my blood sugar was between 16-21 mmol/L with slight blur vision, tired and drowsy easily. I often feel lethargic and sleepy. After consuming 2-3 sachets of the tea daily for about 1 to 2 months, my blood sugar went down from 21 mmol/L to 6 mmol/L. To my surprise after drinking GlucosCare Herbal Tea for almost 2 months, I do not feel sleepy or tire easily anymore. Now I am very happy with the improvement and will continue to use the Glucoscare Herbal Tea.
