

Mr. Poh Kam Wai alias David Fong

Profession : **Engineer**

Blood Sugar Level Before and After Drinking

a) **Before** : **12-15 mmol/L**
b) **After** : **6 mmol/L**

No Expensive Medical Fee

Mr. Poh Kam Wai alias David Fong says that he has been suffering from diabetes for more than 10 years and believes he has inherited the condition from his mother. At present, he has been diagnosed as having a swollen heart due to blockage of his arteries up to 80%. The doctor thinks it might be linked to his diabetic condition. His eyesight is also affected by diabetes. He is able to control his condition with the help of his family who ensure that he does not take much sugar or carbohydrates.

He has so far used up about 5 boxes (500 sachets) of GlucosCare Herbal Tea for the past few months. He uses 3 to 4 sachets a day and takes 1.5 litre of GlucosCare Herbal tea with him when he goes to work. The immediate effect after drinking GlucosCare Herbal Tea was his blood sugar level went down to 6 mmol/L compared to 12 mmol/L to 15 mmol/L before that. Surprisingly my medical report review that my cholesterol level was reduced and two of my arteries are cleared by at least 30%-40% after drinking GlucosCare Herbal Tea. Regarding whether it is costly, he feels that it is less expensive than drinking a cup of coffee. He testifies to its effectiveness in helping him to his friends and relatives.
