

Encik Mior Mohamad Khan

Profession : **Hotel Manager**

Blood Sugar Level Before and After Drinking

a) **Before** : **17-18 mmol/L**
b) **After** : **7 mmol/L**

Better Vision and Cured from Hemorrhoid

Encik Mior Mohamad Khan is a manager of a hotel in Ipoh and has been a Glucoscare Herbal Tea for the past two months. He feels that he is very fortunate to have come to know of Glucoscare Herbal Tea. It has helped his diabetic condition. It has another unexpected effect on his hemorrhoids or piles which he has suffered for many years. Pungent and spicy food used to be taboos to him as it worsens his condition. However, after drinking GlucosCare Herbal Tea, he is now even able to take 'cili boh'. His piles have become less painful and pus that used to flow out has stopped.

He is also surprised that his weight has gone down from 77k to 72kg and even after many sessions of heavy meals, his weight has not gone up. He strongly believes that GlucosCare Herbal Tea has helped him to keep his weight down to a healthy level. Another effect of GlucosCare Herbal Tea is that he does not feel tired easily.

In the beginning, he used to take only one packet a day but on the recommendation of Mr. Tan, he is now taking 3 packets a day, one in the morning, one in the afternoon and one at night and its beneficial effects have increased since he started to increase his daily dosage. Before taking GlucosCare Herbal Tea, his vision is sometimes blurred and while watching television, he has to wink frequently. In fact it was his wife who noticed that this winking habit of his had stopped after using GlucosCare Herbal Tea. He is now having clearer vision. Like all other diabetic patients, Encik Mior said that he used to feel drowsy and lethargic and had to take short naps several times a day. After using GlucosCare Herbal Tea, he is feeling much fitter and seldom takes naps.

Encik Mior admits that he still takes sweet drinks once in a while but before he does that, he will drink GlucosCare Herbal Tea. The sweet drinks taste less sweet after that. This goes to show that it has an effect on the sugar content of the drinks.

According to him, he likes the taste of Glucoscare Herbal Tea and he is drinking it the whole day, reusing the tea a few times by pouring hot water in it. Sometimes, he would add in lime juice which makes it even tastier. When asked whether he drinks it hot or cold, he says that he knows that GlucosCare Herbal Tea should be taken hot and never with ice to get its optimum effects.

Encik Mior added that he is at present not on any medication for diabetes but in spite of that, his blood sugar level which used to be 17 mmol/L to 18 mmol/L has dropped to 11 mmol/L and sometimes even as low as 7 mmol/L. He says that he is living proof of the effectiveness of GlucosCare Herbal Tea in controlling his diabetes and hemorrhoids. Many of his friend and relatives who were skeptical at first are now GlucosCare Herbal Tea users.
