

Mr. Law Phee Sen

Profession : **Goat Keeper**

Blood Sugar Level Before and After Drinking

a) **Before** : **27 - 30 mmol/L**
b) **After** : **7 - 9 mmol/L**

Able To Work Again

The 56 year old Mr. Law Phee Sen's diabetic condition was very serious. His urine looks like the colour of honey. He had spent about RM 4,000.00 to buy a giant ginseng and a lot of money on the other expensive health food. According to him, all those expensive health food could not compare to a sachet of GlucosCare herbal tea in its effectiveness. After using GlucosCare Herbal Tea, he found that the sugar in his blood has already been reduced and he has regained his good health.

Before this, this Mr. Law's blood sugar level measured more than 30 mmol/L. According to him, "Sometimes I couldn't measure my blood sugar has exceeded he maximum level of the doctor's glucose monitor meter. I was incredulous of the seriousness of my illness." He collected some of his urine in a container and was surprised to see that it looks like cotton candy. At first, he thought that those were sperm droplets but realized that the content was his urine at very concentrated sugar level.

Due to his diabetes, he was afflicted with other illnesses. He has heart problem, his limbs suffered from cramps and his feet would feel like they are treading on nails. His vision became blurred and he would feel as if he were seeing stars. Piles developed on his anus and he would feel weak and sleepy. He had to take naps at least 7 times a day.

Mr. Law Added, "Before my illness, I used to ride on my motorcycle to the coffee shop but now it is impossible for me to do so. What's more about working." Due to the seriousness of his illness, he had to stop working for about seven years. He has tried other expensive drugs and health food but still could not overcome his problems until his brother from Singapore who had tried the GlucosCare Herbal Tea with success introduced the product to him.

Mr. Law said, "I started drinking 6 sachets of GlucosCare Herbal Tea (2 in the morning, 2 in the afternoon and 2 in the evening) daily in July 2006 for about 3 days and found that it really worked. I don't feel sleepy anymore and I can even up 10kg of rice while in the past it was impossible for me to lift even a 5 kg bag.

Do not underestimate the effectiveness of a small sachet of GlucosCare Herbal Tea. For Mr. Law, it is a gift from heaven. He has regained his health only after a few days of

drinking GlucosCare Herbal Tea. Today, Mr. Law is a stockist for GlucosCare Herbal Tea and helps to promote and market the product to others who need it.
