Occupation : Director

Blood Sugar Level Before and After Drinking

- a) **Before : 15 mmol/L**
- b) **After : 6-7 mmol/L**

Before taking our tea his blood sugar is 15 mmol/ L. After drinking Glucoscure Tea his blood sugar is about 6 to 7 mmol/ L.

He is now able to enjoy the normal food like deserts etc. However, after each meal he will drink the Glucoscure Tea without fail for fear of the high blood sugar.
