

Mr. Law Kah Fatt (Rev.)

Profession : **Pastor**

Blood Sugar Level Before and After Drinking

a) **Before** : **16 - 19 mmol/L**
b) **After** : **6 - 8 mmol/L**

Energetic Pastor with Better Vision

According to Pastor Law he suffered from a lost of 85% of his vision and couldn't drive. In the beginning he was drinking 2 sachets of Glucoscure Herbal Tea 3 times a day. He drinks the tea in the morning and afternoon. His wife brews the tea for him every day. After 5 months his vision has improved tremendously and now he can drive. When asked about the effects after drinking the tea, he replies that the normally sweet fruit that he eats seems to have lost some of its sweetness, proving that it is really effective in controlling the sugar level. The blood tests that he had at the UKM hospital also showed that his blood sugar was under control. He feels less lethargic after winks after eating breakfast was a thing of the past. The effect of Glucoscure Herbal Tea was proven when his sugar level went up to more than 7 mmol/L after he has forgotten to drink it.

When asked whether it is financially burdensome for him, he says that some of the brands of Chinese tea are more expensive than GlucosCare Herbal tea. He has now changed his habit of drinking Chinese tea to GlucosCare Herbal Tea. He has great faith in the efficacy of GlucosCare Herbal tea in helping him to control his diabetic condition and will continue to use it.
