Blood Sugar Level Before and After Drinking

RBS Before: 660

RBS After: 90-110

I have very high sugar levels. I would find numerous ways to lower my sugar just to keep my life but could not seem to really control my sugar.

Within 1 month of drinking the tea, GlucosCare® was able to lower my blood sugar level and made it stable. My energy is better, no hunger pangs, and my food intake has lessened. Truly a life saver!
